DIGITAL TALKING BOOK CARTRIDGE

The Digital Talking Book Cartridge from independent living aids, LLC is the new medium for playing digital audio books and magazines from the National Library Service for the Blind and Physically Handicapped (NLS), a division of the Library of Congress. With the recent launch of the digital playback system and the new state of the art Braille and Audio Reading Download (BARD) website, patrons can now download books at their leisure in the comfort of their own home. We have designed a special USB cable to make downloading from the new NLS BARD website to a cartridge an easy process.

SPECIFICATIONS:

- Intended for use with the NLS talking book player and any authorized compatible digital talking-book player
- Download from BARD website: <https://nlsbard.loc.gov/>
- Available in 1GB memory capacity
- Reusable and not write-protected
- Measures 3.75" x 2.25" x .5"
- Optional USB cable measures 39.5"
- Holds digital books and magazines in these formats:
 - ANSI/NISO Z39.86 2002 • Daisy 2.0 • MP3
